*When compared to Flexovit Mega Line Cut-Off Wheels.

1.6mm INDUSTRY TOUGH

WHAT'S IN A NAME?

Maxx stands for the highest premium products Flexovit has to offer.

MADE IN AUSTRALIA

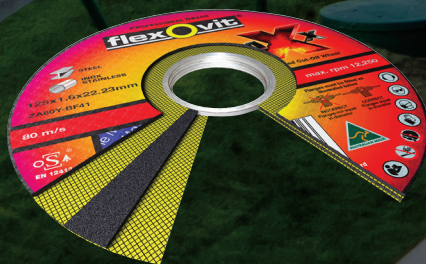

Yes Flexovit wheels are not only developed but made in Australia, with ongoing R&D continuing to push innovations.

We invite you to come visit our plant for a tour.

Proudly since 1978

RIDE TO VICTORY WITH **FLEXOVIT MAXX**

WHY CHOOSE 1.6MM FOR INDUSTRIAL?

Extensive R&D has demonstrated 1.6mm to be the sweet spot offering the best balance in quality and number of cuts for the rigours of demanding industrial applications.

- Greater durability for the most demanding work
- 50% longer life than our regular wheel*
- Minimal burr and bluing on stainless

THE STUFF OUR WHEELS ARE MADE OF

- NEW GENERATION NORZON® PLUS GRAIN
- Tough advanced fracture grain technology
- No dulling grain, instead it simply fractures revealing a razor sharp edge every time
- More cuts with less effort, longer life
- Faster, more precise cuts
- INOX Iron, sulphur, chlorine FREE

THE TOUGH MINI TUB FOR TOUGH WORK SITES

Flexovit Maxx wheels come inside a durable and handy tub, that can take work site knocks. Re-use them to organise small parts.

- Waterproof to protect against harsh elements
- Bright design to stand out in your workshop
- Recyclable polypropylene construction
